PROPOSITION 65 WARNING
December 21, 2005

Dear Resident:

Proposition 65 refers to a California ballot measure which was passed into law as the Safe Drinking Water and Toxic Enforcement Act of 1986 (California Health and Safety Code §25249.5 et seq). BKK Corporation is providing this notice in compliance with the law:

BKK Corporation's landfill at 2210 South Azusa Avenue in West Covina, California emits vinyl chloride, which is a chemical known to the State of California to cause cancer. This notice is provided to you because you live within the approximate area in which estimates of the air emissions predict that persons are exposed to vinyl chloride in the air at a level requiring a warning under Proposition 65.

On the other side of this notice is a drawing which shows the homes that are located within the affected area. Based on a rolling average of the most recent year of air sampling data to determine the level in question and a conservative estimate of how the line fits among those data points, the homes located inside the line were assumed to be exposed to vinyl chloride in ambient air at a level which requires a warning. For vinyl chloride, that level is 0.05 parts per billion by volume.

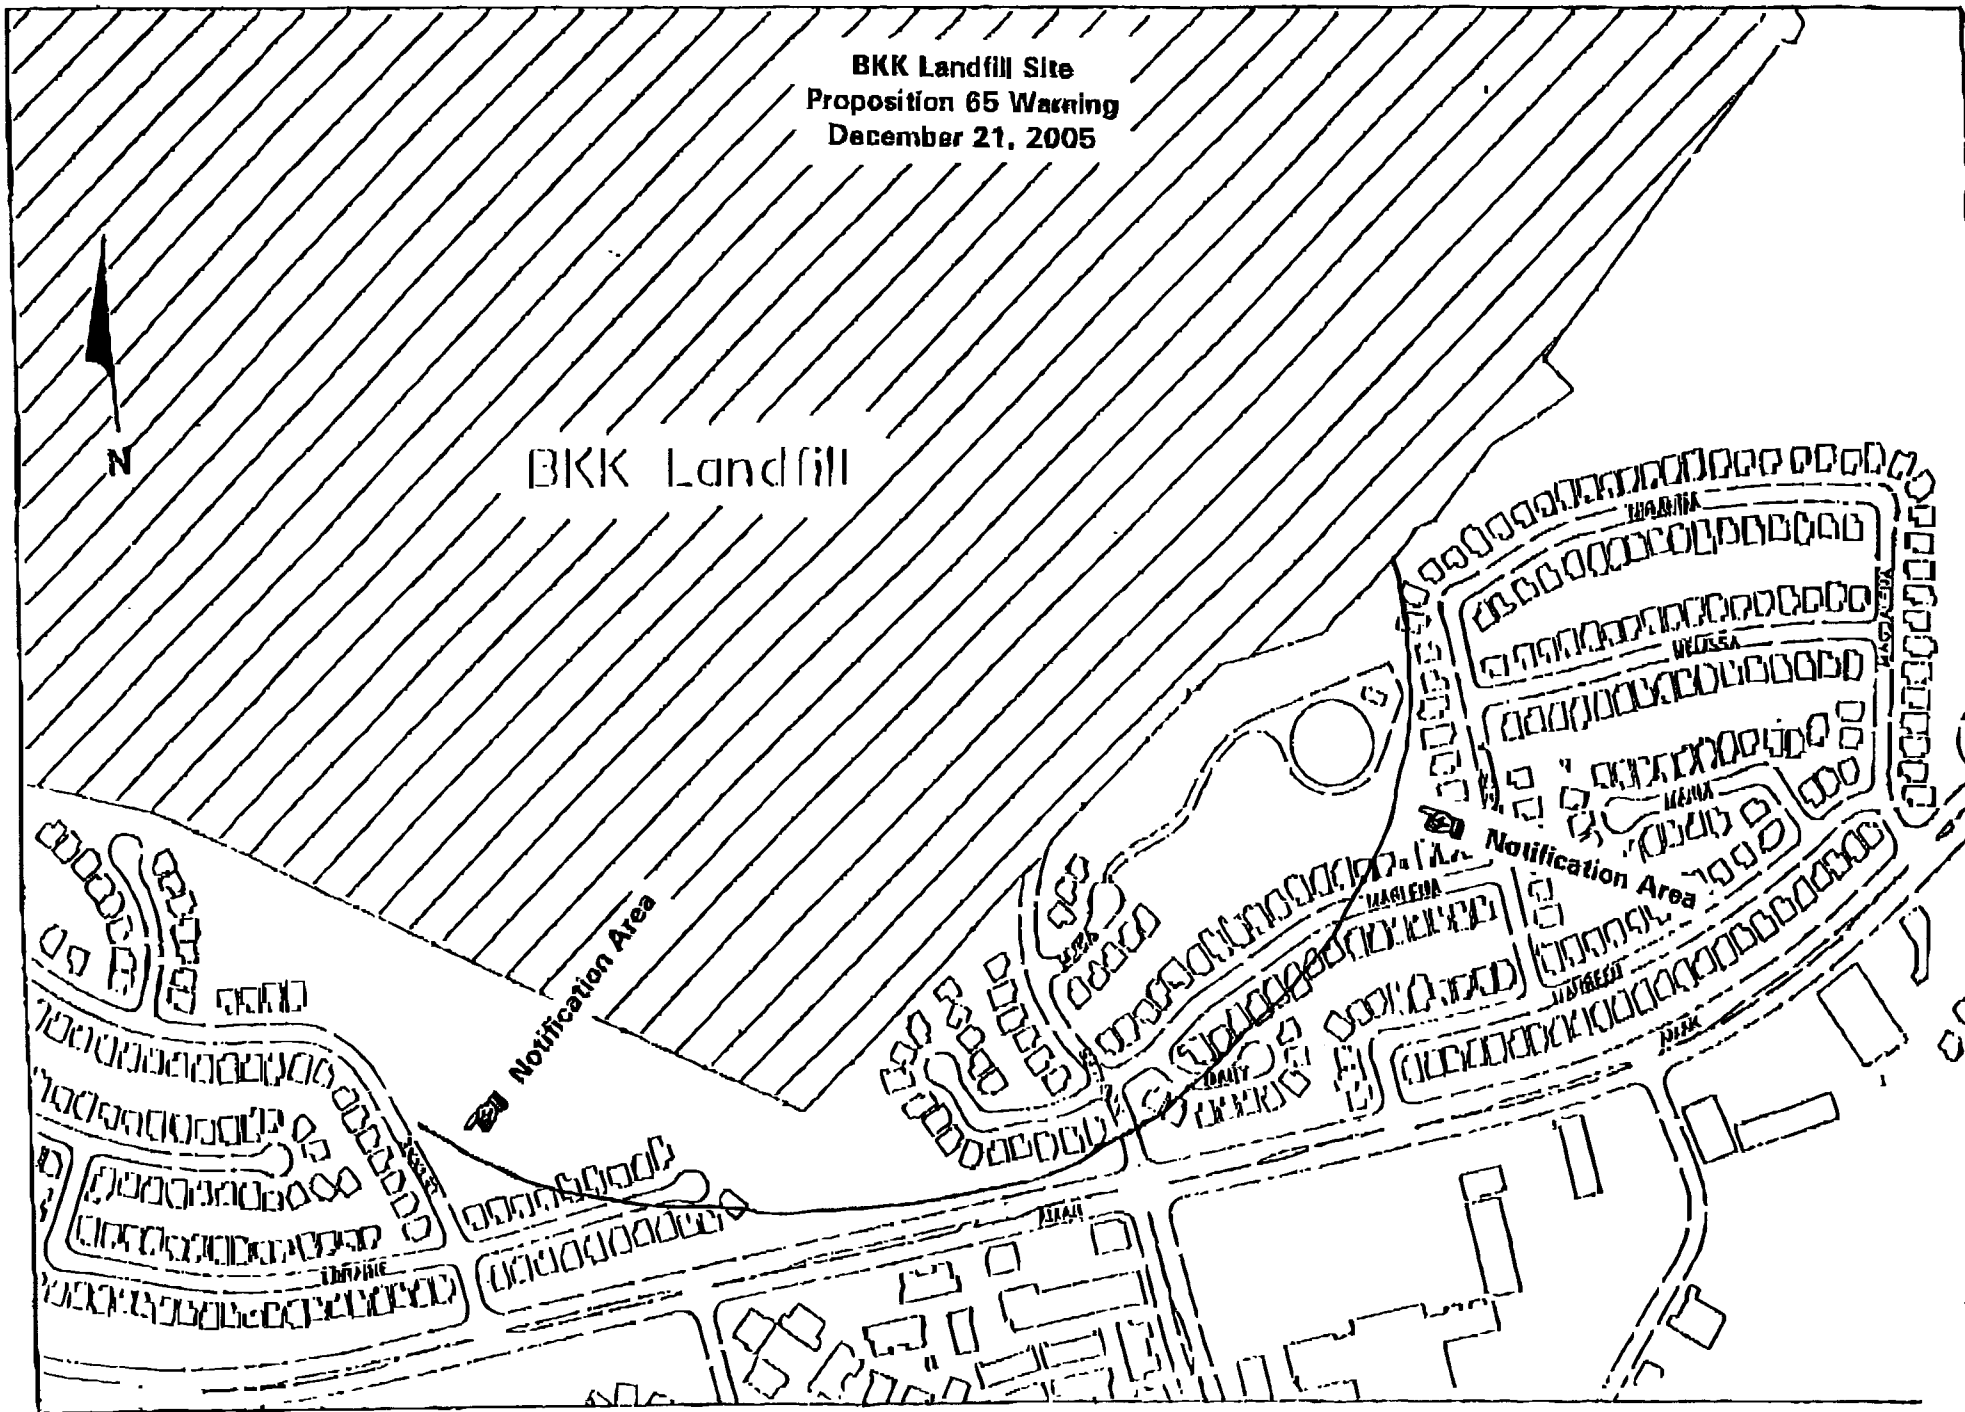

Efforts are being made to reduce vinyl chloride emissions to a level at which modeling of the emissions would indicate No Significant Risk. Progress will continue to be measured by collecting ambient air samples regularly at locations in the neighborhood. BKK Corporation will modify and re-issue this warning in approximately three months, if necessary. If you have any questions about this notice, please call me at (626) 965-0911 x361.

Sincerely,
BKK CORPORATION

By: BAS Construction and Remediation, agent for BKK Corporation
By: Christopher W. Hansen, P.E., Vice President
BAS Construction and Remediation, LP

Notices are being sent to the following addresses in West Covina, CA 91792:
